

B YWASH

Baywash Group is looking for a practical, technically skilled Workshop Supervisor to join our team in Walvis Bay. The successful candidate will be responsible for diagnosing, repairing, servicing and maintaining industrial cleaning equipment, including high-pressure cleaners and related machinery.

MAIN DUTIES AND RESPONSIBILITIES:

- Diagnose faults and troubleshoot mechanical and electrical problems
- Repair and service industrial cleaning equipment
- Perform preventative maintenance and routine inspections
- Test repaired equipment to ensure it operates safely and correctly
- Maintain accurate records of repairs, services and parts used
- Manage workshop tools, equipment and spare parts
- Provide technical support and advice to clients and team members
- Maintain a clean, safe and organised workshop
- Assist with equipment collections, deliveries and on-site assessments when required

QUALIFICATIONS AND EXPERIENCE:

- Proven experience repairing and maintaining industrial cleaning equipment
- Practical knowledge of high-pressure cleaners, pumps, motors and related components
- Experience working with brands such as Kärcher, Comet and CEMSA will be an advantage
- Strong mechanical and electrical fault-finding skills
- Ability to work independently and solve technical problems
- Good organisational and communication skills
- Valid driver's licence
- Must reside in Walvis Bay or be willing to relocate
